SUMMARY

Frontend developer with 5+ years of agency experience. Built design systems adopted across 30+ pages. Contributed to campaign microsites for **Pepsi, Lay's, Cheetos, Sprite and Mirinda**. Production experience with **Vue.js (Vuex)** and vanilla JavaScript. Completed 71-hour React certification (hooks, Router, Redux Toolkit). Deep expertise in **CSS architecture, responsive design and performance optimization**. Previously the sole frontend developer at a digital agency, owning projects from design handoff to deployment. Open to Vue, React or CSS-heavy frontend roles in **Cluj-Napoca or Bucharest**.

EDUCATION

Polytechnic University of Bucharest (Pitesti Center)	Bachelor's Degree in Computer Science
Computer Science	Pitesti • 2015 - 2018

EXPERIENCE

Freelance	Cluj-Napoca
Frontend Developer (Independent)	October 2025 - Present
• Built a WordPress website for a local business client, handling custom CSS, responsive layout and performance optimization. • Completed 71-hour React certification (Maximilian Schwarzmüller) covering hooks, Router, Redux and Next.js. • Developed 5 portfolio projects including a weather dashboard, landing pages, Hangman Game, recipe finder. • Solved 70+ CSS Battle challenges (https://cssbattle.dev/player/dannitu), sharpening layout precision and CSS problem-solving. • Integrated AI tools (GitHub Copilot, ChatGPT, Claude) into daily development workflow for code review assistance, debugging and accelerating research.	

Camyre Agency	Cluj-Napoca
Frontend Developer	May 2024 - October 2025
• Sole ownership of frontend codebase across 20+ websites (15 internal, 5 client-facing — food, delivery, HoReCa industries). • Built all UI components from scratch using SCSS, Tailwind and vanilla JavaScript. • Managed full deployment pipeline for WordPress and static sites (staging to production). • Improved mobile page speed by ~50% through asset optimization and CSS refactoring (no backend support). • Implemented and audited WCAG AA accessibility standards across 12+ client websites using Lighthouse, improving scores across all projects. • Established BrowserStack testing workflow, reducing cross-browser bugs by ~40%.	

- Built and maintained a **shared frontend design system** adopted across **30+ pages**, reducing UI inconsistencies and accelerating development.
- Led frontend development using **Vue.js** delivering features from spec to production.
- Built pixel-perfect interfaces for **5 promotional campaigns microsites** of major brands (**Pepsi, Lay's, Cheetos, Sprite, Mirinda** and others).
- Developed scalable, reusable components using SCSS, Tailwind CSS and Bootstrap.
- Translated designs into responsive, cross-browser interfaces with strong UI/UX consistency.
- Improved Lighthouse performance scores from **~40 to 90+** through lazy loading, code splitting and asset optimization.
- Implemented Vuex for state management in production Vue.js applications.
- Ensured ADA/WCAG AA compliance across the shared design system and brand microsites using Lighthouse accessibility audits, maintaining consistent standards across **30+ pages**.
- Collaborated with Laravel and ASP.NET backend teams in Agile (Scrum) using Git, code reviews and Docker.

SKILLS

-  **Frameworks & Languages:** Vue.js (Vuex, Pinia), React (Redux Toolkit, Router), JavaScript (ES6+), TypeScript
-  **Styling:** SCSS/SASS, Tailwind CSS, Bootstrap, CSS (BEM, mobile-first, responsive design)
-  **Tooling & Workflow:** Git, GitHub, Bitbucket, Docker, BrowserStack, WordPress, PHP/Laravel
-  **Other:** REST API integration, ADA/WCAG accessibility, cross-browser testing, performance optimization

CERTIFICATIONS

React - The Complete Guide (incl. Next.js, Redux) Completed May 2026 | 71.5 hours
Udemy (Instructor: Maximilian Schwarzmüller)
Key skills: React hooks, React Router, Redux Toolkit, Next.js fundamentals, component architecture
